Design That Simplifies Your Day

A well-organised home begins with a smartly designed kitchen. With intelligent interior organisation and thoughtful ideas, every inch of space can be used efficiently, no matter the kitchen's size.

Our focus is on creating functional, stylish and sustainable storage solutions that make daily life easier.

From drawers and pullouts to waste management and recycling options, every detail reflects quality and forward thinking design for seamless everyday organisation.

In the kitchen, where stories unfold,

Radiance Kitchens & Furniture

For over 20+ years, Radiance has been shaping the art of luxurious living through exquisite kitchens & bespoke furniture. Rooted in Pune, India, & celebrated worldwide, our creations embody a rare harmony of craftsmanship, precision, & innovation.

Every design tells a story – of elegance refined over decades, of over 1000 homes transformed into expressions of beauty & comfort. Guided by visionary architects & perfected through in-house manufacturing mastery, Radiance brings timeless aesthetics to life with an enduring commitment to detail & perfection.

Vision & Philosophy

Radiance redefines luxury living through creations that blend beauty, innovation and function. Guided by passion and precision.

We craft homes that inspire, elevate comfort and stand the test of time.

True luxury to us is born from detail, where craftsmanship meets technology and tradition harmonizes with modernity. Every Radiance design is more than visual elegance. It is a feeling transforming everyday spaces into timeless experiences of refined living.

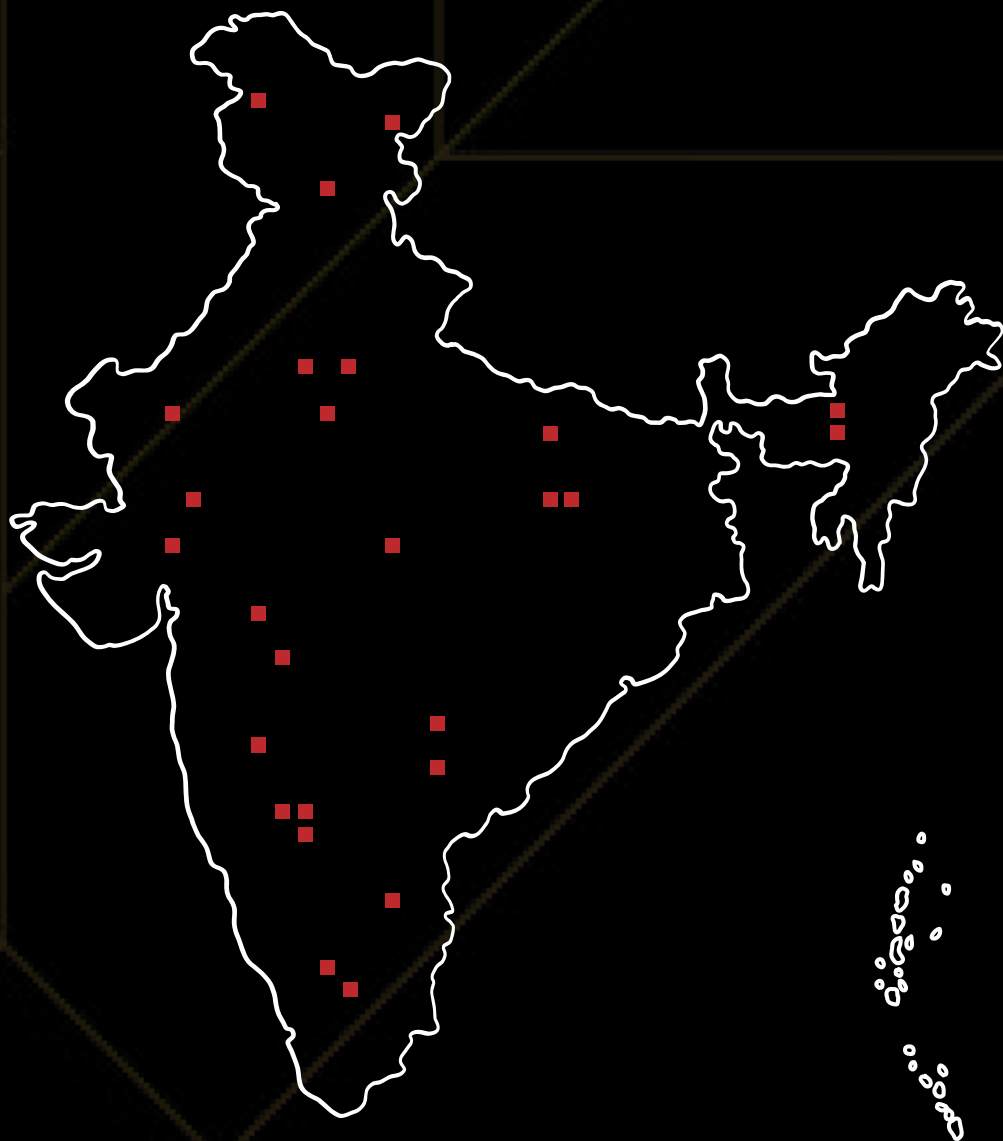

Serving Clients Across India

RADIANCE
kitchens | wardrobes | furniture

Our expertise extends beyond regional boundaries.

From initial design consultation to manufacturing and final installation, each project is managed with careful planning and professional execution.

Our nationwide service capability ensures timely delivery, consistent finishes and dependable after-sales support, allowing clients across India to experience the reliability, design excellence and attention to detail that define Radiance Kitchens & Furniture.

The Soul of Home

It is where her day begins and ends with joy.
It is the place where she nurtures her family, finds peace in
routine and celebrates small moments that matter most.

Every drawer, every shelf, every bit of organised space adds
ease to her day and comfort to her heart.

Surrounded by love, flavour and laughter, this kitchen
becomes her personal retreat and her family's favourite
gathering spot.

The Soul of Home

From cooking to organizing, everything is within easy reach, making her time in the kitchen smooth, comfortable and joyful a true blend of creativity, care, and everyday happiness.

In the warmth of her kitchen, every moment comes alive. It is where she experiments, teaches and creates lasting memories. With thoughtful design and smart storage, every task feels effortless making the kitchen a space of creativity, care and everyday happiness.

Manufacturing & Technology

At Radiance Kitchens & Furniture, every masterpiece begins in our state-of-the-art manufacturing facility where technology meets craftsmanship.

Our factory is equipped with advanced CNC machines, Edge banding units, Lamination presses and dedicated Assembly zones, ensuring precision and perfection at every stage.

From CAD design to CNC precision cutting, every panel is crafted with 'millimetre' level accuracy.

From factory production to quality checks and logistics. Every step is executed with precision and perfection.

Every creation from our factory reflects our commitment to design excellence, precision engineering and lasting quality.

The true essence of Radiance.

Our Machinery & Advantage

The H300 CNC machine offers high precision and accurate results in panel processing. Giving us limitless possibilities in panel processing like routing, drilling, boring, grooving and much more.

The Skipper machine offers us the ability to process panels simultaneously on multiple sides, giving us consistent quality, reduced labour costs contributing to efficiency in production costs.

The hot press machine is a reliable workhorse. It offers key benefits for plywood, laminate, and veneer production. It ensures a strong adhesive bond and consistent bonding across layers.

The PANDA 400 is a single-head sawing machine designed for cutting aluminum and PVC profiles. It features a 400mm diameter, up-feed blade design.

Beam saw machine help us with high precision, speed, efficiency and reducing wastage. Allowing us for large scale production with accuracy.

The Panel saw offers high precision and speed in cutting resulting in smoother and more accurate cuts, minimising waste, leading to higher raw material utilisation for small batch of orders and
